

Fynn Gerding

Phone: +49 157 35 60 14 60

Email: fynn.gerding@gmail.com

Nationality: German

Date of birth: 25.05.2003

Gender: Male

LinkedIn: linkedin.com/in/fynn-gerding

Research Interests

M.Sc. Artificial Intelligence (Honors), Radboud University. **Research focus:** Bayesian machine learning, generative deep learning, and information theory. Recent work includes inductive geometric bias in reinforcement learning (how MDP symmetries shape learning) and a project on (Bayesian) neural-network initializations/priors and their effects on convergence stability and robustness.

Work Experience

Radboud University, *Teaching Assistant*

Feb 2023 to present

Courses:

- Reinforcement Learning
- Functional Programming
- Frequentist Statistics
- Research Skills
- Bachelor Thesis

Responsibilities: Led tutorials, designed and graded assignments and exams, supported research projects, and coordinated the Bachelor-thesis supervision process.

Nedap N.V., *Data Scientist*

Aug 2023 to Jan 2024

Developed an AI-driven entity-detection system for unstructured clinical text and prototyped a customer-facing chatbot to navigate Nedap's healthcare suite. Collaborated with product and engineering, documented experiments, and supported evaluation.

SUE B.V., *AIOps Engineer*

Jul to Aug 2023

Built a scalable data pipeline to automate use of large language models in industry settings, handling high-volume unstructured text and integrating open-source LLMs in cloud environments. Focus on robust deployment and integration.

Education

M.Sc. Intelligent Technology (cum laude)

Aug 2024 to Feb 2026

Radboud University; *Nijmegen, Netherlands*

B.Sc. Artificial Intelligence (Honors Program, cum laude)

Aug 2021 to Jul 2024

Radboud University; *Nijmegen, Netherlands*

Abitur

2013 to 2021

Couven Gymnasium; *Aachen, Germany*

Skills and Competences

Languages

German (native)

English (full professional proficiency)

Dutch (elementary proficiency)

Extracurricular activities

Honors Student Artificial Intelligence. Committee work: organising formal activities for honors students (NSHV). Fundraising for Right to Play. Ultimate Frisbee.

Social skills and other

Problem solving, communication, collaboration, project work, leadership, initiative

Further qualifications

Driver's license, Java, Python, data science, machine learning, artificial intelligence, MS Office, Git, graphic design.
